

Triton® RL1600 Retail ATM

Affordable, yet rich in features, this compact ATM makes it easy to offer your customers fast, convenient access to their cash.

The Challenge

Most merchants would like to offer their customers the convenience of an automated teller machine (ATM). But the initial investment and ongoing maintenance costs can be too expensive for many independent businesses.

Financial institutions may also wish to expand their customer touch points with off-site ATMs at multiple locations. But duplicating the kind of high-end ATM experience customers have come to expect demands feature-rich performance.

The Solution

The Triton RL1600 Retail ATM combines entry-level affordability with advanced capabilities and a compact, attractive, walk-up design. It can help retailers and financial institutions generate additional income and customer loyalty. And it is available as part of the First Data Retail ATM Program, an affordable turnkey solution that includes equipment, installation, training, maintenance, reporting and service.

Here's How It Works

With its compact design, customizable display topper and color-screen graphics, the Triton RL1600 invites customers to use your store for their ATM needs. Customer convenience means additional revenue for you—from ATM surcharge and/or interchange fees to additional in-store purchases, traffic and repeat business. And the First Data Retail ATM Program brings you all the benefits of an ATM, with turnkey convenience and affordability.

Triton® RL1600 Retail ATM

Help Your Business

- Generate new revenue from ATM surcharge and/or interchange fees
- Increase in-store purchases by making additional cash available to customers
- Create custom marketing messages with display topper, transaction screens, even coupons on receipts
- Build store traffic and customer loyalty
- Enjoy a competitive advantage over merchants that do not offer an ATM

Help Your Customers

- Access cash conveniently
- Make purchases now with on-demand cash availability
- Check bank account balances
- Save time with fast ATM transactions
